Javascript, Typescript, HTML, CSS, React, Bootstrap, Mui, Redux, Redux Toolkit, Redux Saga, Redux thunk, React Router, Git, GitHub, Bit bucket, Azure, Git lab, Rest, Axios, Fetch, Scss, Firebase, i18n-js, Jitsi, validate.js, Yup

PROJECTS

BUDGIE - CE - Lead Management
https://ce.budgie.co.in/

- Developed a lead management app for contract employees, with key modules for efficient lead handling and sales management.
- The **Lead Management** module allows users to add leads, view lead info, log activities, track follow-ups, and manage lead history with search, sorting, and filtering options, along with bulk upload functionality.
- The **Sales List** module enables searching, sorting, and filtering of sales info, adding new clients, and bulk uploading, all with scroll pagination for seamless navigation.
- The **Roles & Permissions** module provides functionality to create roles, assign them, and manage permissions.
- The **Client Onboarding** module facilitates KYC document management.
- The **Agreement Status** module tracks the approval process of agreements, with detailed status and info tracking.

Contribution: Integrated **Microsoft Login**, developed **Lead Management**, **Sales List**, **Roles & Permission**, **Client Onboarding**, **Agreement Status**, and **Location Services** modules for efficient project management, data handling, and role-based access.

Tech Stack: React, Redux-Toolkit, React Router, HTML5, CSS, Mui, Yup

SPOTLINE - Attendance

https://attendance-dev-portal.citpl.info/

- Spotline is an all-in-one attendance management app designed to streamline workforce tracking and enhance operational efficiency.

Contribution: Payroll, Search, Upload, Table List, Payslip download

Tech Stack: React, Redux-Toolkit, React Router, CSS, Mui,

PULSE

https://webportaldev.ckdigital.in/

- Pulse is a survey platform to automate the insights-gathering process and quickly find out what consumers are thinking

Contribution: Create project form with filters, Duplicate targets, Duplicate and edit projects, Completed and In completed list view, Send notification.

Tech Stack: React, Redux-Toolkit, React Router, CSS, Bootstrap,

MARKETING AUTOMATION

https://marketingautomationdev.ckdigital.in/api

Contribution: Bar chart, stacked chart, Doughnut chart, Graph chart, Crud in Table, Api integration, Hierarchy based filters

Tech Stack: React, Redux-Toolkit, React Router, CSS, Mui, Scss,

INTRVU SPACE — Hiring Application (AI)

https://www.intrvu.space/

- intrvu SPACE helps you conduct automated Interviews, Generate Reports, and Approve Candidates end to end with zero manual effort.
